APD MAKES HISTORY

The City of Alpine is proud to announce that the Alpine Police Department made U.S. history by receiving the first call ever on a cloud-native platform with i3 ESInet. Carbyne, the company that founded this groundbreaking technology, is essentially the first call-taking platform that is purely cloud-based. The system provides first responders with the enhanced resources that they need to ensure the highest level of public safety. Enhanced safety features include improved location data, the availability of the 911 user to provide live video feed to dispatchers, and other state-of-the-art technological features. The City would like to thank Carbyne and the Rio Grande Council of Governments for this unprecedented opportunity to better serve and protect the welfare of our citizens.
