ANTICIPATED AIRPORT SHUTDOWN UPDATE

Alpine Casparis Municipal Airport commenced TxDOT CSJ. No. 2224ALPIN project for airport lighting improvements on April 11, 2023. The project consists of replacing runway lights along 01/19, NAVAID and signage improvements. At this time, Runway 01/19 is temporarily closed for construction. The contractor, B-C, is working on furnishing a project schedule which will detail the length of closure for Runway 01/19. Both runways, Runway 01/19 and Runway 05/23, will need to be closed for an estimated one (1) to three (3) weeks once construction along the crossing intersection begins.

We have asked to be notified at least one week in advance before the project reaches this junction to notify tenants and guests for both runway closures. NOTAMS will be posted to keep everyone informed as well as signs within the terminal.

During runway closures, helicopters not flying the approaches will be able to land and depart during this project as allowed by their company/personal rules and regulations. We appreciate your patience as the timetable of this project has fluctuated. More information will be available as we receive it.
